

ASPONTE XTREME DEVELOPER TOOLS

Announcing a limited-time offer on the AsponTE XDT – Extreme Developer Tools, tailored to significantly boost your team’s productivity. With a remarkable 50% off the list prices, there has never been a better time to invest in streamlining your digital workflows.

XDT Tool	Description	Retail	Special
Alerts	Powerful DX powered notification and alerting, features widgets, webhooks, and text integration.	\$15,000	\$7,500
Bookmarks	Keep tabs of your content, no matter where it moves; provide “quick links” even if the content changes location.	\$5,000	\$2,500
Bootstrap Widgets	Over 30 drag-and-drop WCM components built for the Bootstrap framework.	\$10,000	\$5,000
Content Analytics Bridge	All websites are selling something, even if it’s itself. Treat all sites like e-commerce sites and get deep insights into what your content and website are doing... <i>or not doing!</i>	\$3,000	\$1,500
Custom Authoring Tools	A set of utilities that enhances developer activities and reduces troubleshooting efforts for system administrators: Category Utility, Email Functionality, EncodeForJSON WCM plugin, Link Utility, Populate JSP Action, AsponTE Tools Portlet, Content Helper	\$10,000	\$5,000
File Manager	Need to organize and leverage a large number of documents, images, and other binary files but don’t want to clog the DX database? This is the solution for you.	\$50,000	\$25,000
Google Analytics Dashboard	Wish you could see Google Analytics data inside your portal? We built a custom dashboard to retrieve the most common data from your Google Analytics account.	\$7,000	\$3,500
Homebase Toolkit	Build and populate an entire intranet in less than a day, control permissions to pages and content from the front end, tonal analysis for articles, the most comprehensive DX authoring guide ever produced, and 3 complete functional websites to use as examples.	\$75,000	\$37,500
Search and Replace	Need to quickly rebrand and change color codes or other data in your content? Upgrading your bootstrap version and need to swap css class names? This tool performs edits at scale and provides deep level reporting on permissions and access.	\$20,000	\$10,000
Snapshot	Snapshot any website, or site area, on a schedule, push to an http server for remote serving or record retention, or just receive a daily report of any website issues such as unusually large files, dead links (404), permission issues (403), or server errors (500/503) - and more!	\$10,000	\$5,000
Video Manager	Video Manager provides a low cost and robust solution for HCL Digital Experience Content Authors to manage video links from any public streaming service (Vimeo, YouTube, Brightcove, Wistia, and more).	\$8,000	\$4,000
